

LED Ceiling Spotlight Surface Mount Adjustable Modern Adjustable Ceiling Light 10W Directional LED Downlight with Rotating Head

Modern telescopic ceiling spotlight with a rotating and tilting head for precise accent and display lighting

This adjustable ceiling-mounted LED spotlight delivers precise directional illumination in a compact architectural form. Its cylindrical head, round surface canopy, and clean profile suit modern residential and commercial interiors.

The tilting, rotating head and 3.15-4.65 in telescopic body provide flexible aiming for artwork, shelving, displays, and wall washing. Available in black or white, the 10W fixture is suited to homes, boutiques, galleries, hotels, offices, and retail spaces.

PRODUCT INFORMATION

Technical Specification

PRODUCT SPECIFICATIONS

Feature	Details
Product Type	Surface-mounted adjustable LED ceiling spotlight
Nominal Power	10W nominal LED model
Installation	Surface-mounted ceiling
Light Type	Directional LED spotlight
Light Direction	Adjustable accent / wall-wash aiming
Adjustability	Tilting and rotating head
Body Design	Telescopic / extendable cylindrical body
Finish Options	Black / White
Ceiling Canopy	Dia. 60 mm (2.36 in)
Spotlight Head	Dia. 50 mm (1.97 in)
Adjustable Length	80-118 mm (3.15-4.65 in)
Applications	Home, retail, gallery, hotel, office and display lighting
Warranty	5-year limited product warranty

MODEL AND SIZE OPTIONS

Black and white models share the supplied 60 mm canopy, 50 mm head and 80-118 mm length.

TELESCOPIC BODY

Extendable cylindrical head supports fine beam positioning.

PRODUCT NOTES

- Dimensions: The supplied graphics show a 60 mm canopy, 50 mm spotlight head, and telescopic body length adjustable from 80 to 118 mm.
- Aiming: Rotate and tilt the head only within the mechanical range of the delivered model; do not force the joint or telescopic body.
- Model verification: Input voltage, color temperature, lumen output, beam angle, dimming method, driver details and IP rating were not supplied. Confirm these values before final specification or installation.

INTERIOR APPLICATION

Suitable for boutiques, galleries, displays, homes and offices.

SURFACE-MOUNTED ADJUSTABLE ARCHITECTURAL SPOTLIGHT

Design and Installation

RECOMMENDED INSTALLATION SEQUENCE

1

Isolate the circuit and confirm the delivered 10W model, electrical rating, finish, dimensions, and ceiling location.

2

Secure the round mounting canopy or supplied base to a structurally sound ceiling and route the conductors.

3

Complete the electrical connections according to the delivered fixture markings and applicable local requirements.

4

Fasten the body, restore power, extend the head, then rotate and tilt it to aim the light where required.

DESIGN GUIDANCE

- Aiming: Use the tilting and rotating head to highlight artwork, shelving, merchandise, counters or feature walls.
- Extension: Set the telescopic body between 3.15 and 4.65 in to refine the beam origin and visual proportion.
- Spacing: Coordinate fixture intervals with mounting height, target size, finish reflectance and ambient lighting.
- Finish: Select black for visual contrast or white for quieter integration with the ceiling.
- Location: Use in dry interiors unless the delivered configuration carries a verified environmental rating.

Installation must be completed by a qualified person. Verify the delivered voltage, driver, CCT, dimming, beam angle, supplied hardware, and ceiling conditions before installation.

PROJECT SELECTION GUIDE

Specification and Selection

PRODUCT DESCRIPTION

The LED Ceiling Spotlight combines a compact round surface canopy with a telescopic cylindrical head for precise directional illumination. The fixture can be extended from 80 to 118 mm and aimed through its rotating and tilting joint, making it suitable for accent lighting, wall washing, artwork, shelving, merchandise and architectural details. Black and white finish options support modern residential and commercial interiors, while the 10W LED format provides a clean, focused lighting solution without requiring a recessed ceiling opening.

PROJECT SELECTION GUIDE

PRODUCT	LED Ceiling Spotlight Surface Mount Adjustable 10W Directional Downlight
POWER	10W nominal LED model
INSTALLATION	Surface-mounted ceiling
LIGHT TYPE	Directional LED spotlight
ADJUSTMENT	Tilting and rotating head
BODY DESIGN	Telescopic / extendable cylindrical body
